Pigman, M. 2014. The impact of cooling strategy and personal control on thermal comfort. MS Thesis. [http://www.escholarship.org/uc/item/67q7n62r](http://www.escholarship.org/uc/item/67q7n62r)

Chen, B., S. Schiavon, F. Bauman and Q.Y. Chen. 2014. A comparison between two underfloor air distribution (UFAD) design tools. *Proceedings of the 13th International Conference Indoor Air 2014*, Hong Kong. July 7-12. [https://escholarship.org/uc/item/5zz6g8wj](https://escholarship.org/uc/item/5zz6g8wj)

Fuertes, G. and S. Schiavon. 2014. Plug load energy analysis: The role of plug loads in LEED certification. *Energy and Buildings*. [http://escholarship.org/uc/item/8fs0k03g](http://escholarship.org/uc/item/8fs0k03g)

Schiavon, S., D. Rim, W. Pasut and W. Nazaroff. 2014. Sensation of draft at ankles for displacement ventilation and underfloor air distribution systems. *Proceedings of the 13th International Conference Indoor Air 2014*, Hong Kong. July 7-12. [https://escholarship.org/uc/item/34t9x4st](https://escholarship.org/uc/item/34t9x4st)
Schiavon, S., T. Webster, D. Dickerhoff and F. Bauman. 2014. Stratification prediction model for perimeter zone UFAD diffusers based on laboratory testing with solar simulator. *Proceedings of the 13th International Conference Indoor Air 2014*, Hong Kong. July 7-12. [https://escholarship.org/uc/item/14v2v0fc](https://escholarship.org/uc/item/14v2v0fc)

Feng, J., F. Bauman, and S. Schiavon. 2014. Critical review of water based radiant cooling system design methods. *Proceedings of the 13th International Conference Indoor Air 2014*, Hong Kong. July 7-12. [https://escholarship.org/uc/item/2s00x6ns](https://escholarship.org/uc/item/2s00x6ns)

Taub, M. 2013. Power to the people: Personal control in offices for thermal comfort and energy savings. Master of Science Thesis, Dept. of Architecture, University of California, Berkeley. [https://escholarship.org/uc/item/9pz0s32m](https://escholarship.org/uc/item/9pz0s32m)

Moezzi, M., C. Hammer, J. Goins and A. Meier. 2013. Behavioral strategies to reduce the gap between potential and actual savings in commercial buildings. Final report for California Air Resources Board (contract number: 09-327). [https://escholarship.org/uc/item/44t1p5gg](https://escholarship.org/uc/item/44t1p5gg)
